Every Child an Achiever David W. Russell, 2002 Time Briton Hadden, Henry R. Luce, 1992-05 **Gifted and Talented International**, 1994 **The Bright Survivor** Sharon Shih, 2024-01-12 The Bright Survivor is a memoir offered in a unique second person mother to son approach The mother provides a detailed story about how her son grew up in a small family of the first generation immigrants in Canada Her son was born in Toronto when she and her husband were in their forties finishing school and starting a new career When they immigrated to Canada after his birth the immigration officer asked them to make sure that he gets all that a Canadian deserves It took twenty years The family of three explored and overcame several learning curves For many years being with his parents was rare for the boy because his parents always worked full time He grew up with Chinese nannies home cares after school programs and extra curricular lessons For summer and winter breaks he was busy with camps and sometimes family trips In his primary school years the boy was fine but had little patience in group settings and split grade classes His parents pursued a better fit for his education He eventually felt in the right place with the International Baccalaureate program at high school and went to a co op program for his college education to become an engineer His mother wondered sometimes if the home she had provided could have been more relaxing and better appreciated Her generation never had the time or resources Her version of his childhood is marked by persistent effort in a diverse world always with an open mind and often with love and happiness **The Executive Educator**, 1992 **Challenging Children** Linda Vettrus, Mary Topero, Lisa C. Ragsdale, 1999 Presents methods used by the Whole Child Institute to help children who manifest out of control or hyperactive behavior These include diet modification allergy desensitization and structured environment Hyper Education Pawan Dhingra, 2020-04-28 An up close look at the education arms race of after school learning academic competitions and the perceived failure of even our best schools to educate children Beyond soccer leagues music camps and drama lessons today s youth are in an education arms race that begins in elementary school In Hyper Education Pawan Dhingra uncovers the growing world of high achievement education and the after school learning centers spelling bees and math competitions that it has spawned It is a world where immigrant families vie with other Americans to be at the head of the class putting in hours of studying and testing in order to gain a foothold in the supposed meritocracy of American public education A world where enrichment centers like Kumon have seen 194 percent growth since 2002 and target children as young as three Even families and teachers who avoid after school academics are getting swept up Drawing on over 100 in depth interviews with teachers tutors principals children and parents Dhingra delves into the why people participate in this phenomenon and examines how schools families and communities play their part Moving past Tiger Mom stereotypes he addresses why Asian American and white families practice what he calls hyper education and whether or not it makes sense By taking a behind the scenes look at the Scripps National Spelling Bee other national competitions and learning centers Dhingra shows why good schools good grades and

good behavior are seen as not enough for high achieving students and their parents and why the education arms race is likely to continue to expand
