*Education Versus Qualifications?* John Oxenham, 2024-09-18 Originally published in 1984 this book investigates the validity of educational qualifications how they are determined what justifications exist for them and how they change It examines the assumption linking education and productivity and explores the belief that the ways in which scholastic qualifications are acquired distort education In the investigations the labour market the school and community are not treated as black boxes with no questions asked of their contents Each is opened and placed under the microscope Human resource personnel are asked to explain qualifications and selection for jobs Supervisors are asked to estimate the quality of their workers Teachers are observed in classrooms Parents are asked what they hope for when they send their children to school Simultaneously research from a wide range of countries and cultures is explored *Life'S Lessons Learnt* Sean A O'Reilly, 2016-05-24 Every person has an interesting life story to tell and I do not claim that my story is unique I write about my experience of living alone with my grandmother on an Irish farm and why it shaped my national identity My life changing move to London and the need to become street wise and still make it to university is covered I describe how my debating exploits at school and university got me an invitation to The House of Lords and how I met my future wife and entering a grammar school for the very first time as teacher My passion for comprehensive education more enlightened science teaching and my role in senior school management all get an airing as well as my camping political and sporting adventures Space is given to how we made lifelong friends with some Germans and our many years of skiing in Austria and Norway The book also covers the period from early retirement in 1999 to my years teaching in some of Englands elite private schools and why girls really do love chocolate I describe how I coped with a heart bypass in 2012 and got back to marathon running and took up marathon bike riding for charity I conclude with my take on the human predicament *Examining the World* Sandra Raban, 2008-01-17 The first full length history of the University of Cambridge Local Examinations Syndicate **Report of the Northern Ireland Schools Examinations Council** Northern Ireland Schools Examinations Council, 1977 **Curriculum Development in Further Education** John Russell, Jack Latcham, 1979 **Resources in Education** , 1985 **Science Education Research and Development Abstracts** B.
