Beers,1986 A textbook history of the world focusing on the development of various civilizations *The Patchwork of World History in Texas High Schools* Stephen Jackson,2022-11-30

This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States *Teaching Global History* Alan J. Singer,2012-04-27 *Teaching Global History* challenges prospective and beginning social studies teachers to formulate their own views about what is

important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it **Patterns of Civilization** Burton F. Royalists, Radicals, and les Misérables Eric Martone,2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty s claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vendée a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in France continued to be characterized by violence during the early 1830s as Louis Philippe attempted to establish his regime s authority The most significant of these uprisings was the republican dominated June Revolution of 1832 Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political continuation of a biological crisis The sad fate of the uprising however prompted republicans to regroup and develop new strategies for success As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the re organization and growing solidification of French republicanism that paved the way for the Revolution of 1848 This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo s novel *Les Misérables* within the context of the legacy of the French Revolution While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848 This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic As

a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies *Document-Based Assessment Activities for Global History Classes* Theresa C. Noonan,1999 Covers all significant eras of global history Encourages students to analyze evidence documents and other data to make informed decisions Develops essential writing skills **World History California Ancient Civilizations Core Text Grade 6** McDougal Littell,2005-02-04 Combines motivating stories with research based instruction that helps students improve their reading and social studies skills as they discover the past Every lesson of the textbook is keyed to California content standards and analysis skills World History: Patterns of Interaction Holt McDougal,2003-01
