Entering the Agon Elton T. E. Barker,2009-01-22 This book investigates one of the most characteristic and prominent features of ancient Greek literature the scene of debate or agon in which with varying degrees of formality characters square up to each other and engage in a contest of words Drawing on six case studies of different kinds of narrative epic historiography and tragedy and authors as diverse as Homer Herodotus Thucydides Sophocles and Euripides this wide ranging study analyses each example of debate in its context according to a set of interrelated questions who debates when why and with what consequences Based on the changing representations of debate across and within different genres it shows the importance of debate to these key canonical genres and in turn the role of literature in the construction of a citizen body through the exploration reproduction and management of dissent from authority
