*Advanced Methods for the Solution of Differential Equations* Marvin E. Goldstein, Willis H. Braun, 1973 This book is based on a course presented at the Lewis Research Center for engineers and scientists who were interested in increasing their knowledge of differential equations Those results which can actually be used to solve equations are therefore emphasized and detailed proofs of theorems are for the most part omitted However the conclusions of the theorems are stated in a precise manner and enough references are given so that the interested reader can find the steps of the proofs

**Complex Variables and Applications** James Ward Brown, Ruel Vance Churchill, 1996 Focusing on routines as basic as going to school and cooking and cleaning *Voices of Civil War America Contemporary Accounts of Daily Life* explores the lives of ordinary Americans during one of the nation's most tumultuous eras The book emphasizes the ordinary rather than the momentous to help students achieve a true understanding of mid 19th century American culture and society Recognizing that there is no better way to learn history than to allow those who lived it to speak for themselves the authors utilize primary documents to depict various aspects of daily life including politics the military economics domestic life material culture religion intellectual life and leisure Each of the documents is augmented by an introduction and aftermath as well as lists of topics to consider and questions to ask

**Mathematics for Physical Chemistry** Robert G. Mortimer, 1999 This is the ideal textbook for those students who want to sharpen their mathematics skills while they are enrolled in a physical chemistry course It provides students with a review of calculus and differential equations which will enable them to succeed in the physical chemistry course Features Completeness contains all of the mathematics needed in undergraduate physical chemistry Clarity Every sentence every example and every equation have been constructed to make it as clear as possible Applications oriented Designed for applications of mathematics not for mathematical theory written for a chemist who needs to use mathematics not for a mathematician who needs to study the underlying theory
