The Honors Class Ben Yandell, 2001-12-12 This eminently readable book focuses on the people of mathematics and draws the reader into their fascinating world In a monumental address given to the International Congress of Mathematicians in Paris in 1900 David Hilbert perhaps the most respected mathematician of his time developed a blueprint for mathematical research in the new century

Handbook of Conformal Mappings and Applications Prem K. Kythe, 2019-03-04 The subject of conformal mappings is a major part of geometric function theory that gained prominence after the publication of the Riemann mapping theorem for every simply connected domain of the extended complex plane there is a univalent and meromorphic function that maps such a domain conformally onto the unit disk The Handbook of Conformal Mappings and Applications is a compendium of at least all known conformal maps to date with diagrams and description and all possible applications in different scientific disciplines such as fluid flows heat transfer acoustics electromagnetic fields as static fields in electricity and magnetism various mathematical models and methods including solutions of certain integral equations

Fundamentals of Rock Mechanics John Conrad Jaeger, Neville G. W. Cook, Robert Zimmerman, 2009-03-12 Widely regarded as the most authoritative and comprehensive book in its field the fourth edition of Fundamentals of Rock Mechanics includes new and substantially updated chapters to this highly praised text Extensively updated throughout this new edition contains substantially expanded chapters on poroelasticity wave propagation and subsurface stresses Features entirely new chapters on rock fractures and micromechanical models of rock behaviour Discusses fundamental concepts such as stress and strain Offers a thorough introduction to the subject before expertly delving into a fundamental self contained discussion of specific topics Unavailable for many years now back by popular demand An Instructor manual CD ROM for this title is available Please contact our Higher Education team at HigherEducation@wiley.com or HigherEducation@wiley.com for more information
