**Emotive Networks and Brands** Sabrina Eilers,2003-08-25 Inhaltsangabe Abstract Brands have

existed for several hundreds of years Farmers used to brand their cattle by burning a mark into their fur Others engraved initials into their valuables The mark showed who the possession belonged to or where the cattle or goods originated from This tradition still lives on in the logos names symbols and designs companies give to their products and services to distinguish their offers from the others the competitors From a simple marking of possessions and origin branding has come a long way Nowadays companies invest a great amount of resources into building maintaining and nurturing their brands In acquisitions companies pay a huge amount of money for a brand Take Nestl s acquisition of Rowntree which owns brands like Kit Kat and Smarties as an example Nestl paid five times the net asset value of Rowntree in order to acquire stable brands Why do companies pay such large sums of money for an invisible asset like a brand The answer is simple consumers do the same Studies showed that consumers pay a far higher price for a product or service of a well known brand they trust than for a comparable offer from a less well know brand Brands make up for a big chunk of a firm s revenues today and make sales predictable As Internet and mobile communication grows in terms of users and becomes more important in their users lives brands are unsure of how to handle this new medium in the digital age since market dynamics have changed Competition is more fierce rumours spread worldwide in no time and brands lose emotional touch with their target segment This change has been facilitated by online and mobile communication of peers People have always formed peer networks but today these networks are much more powerful and quicker Networks of consumers take over and steal power from established brands Shell witnessed a worldwide protest against its plans of sinking the oil platform Brent Spar into the North Sea Consumers avoided Shell stations and supported Greenpeace Rumours of sweat shops in Asia run by Nike and Reebok have led to loss of face as a result of worldwide protests On top of these threats brands have to face the fact that they have no chance fighting these networks of consumers At the same time peer networks also open up many opportunities like a customized and personalized approach to every individual At the beginning of last century the owner of a general store knew **V10 vixen's Practical Car's** Joanna Barker, Audi TT James Ruppert,2003 This is the story of the Audi TT one of the biggest motoring sensations of the 1990s Audi s most exciting car since the original Quattro has won plaudits from the moment of its launch and has remained hugely popular in spite of question marks over the safety of early versions James Ruppert tells the complete story of the TT roadster and coupe in all their versions finding where the design came from where it is going to and the impact this little big car has had on the motoring world *Torque* ,2006-12 Singapore s best homegrown car magazine with an editorial dream team driving it We fuel the need for speed VW GTI, Golf, Jetta, MK III & IV Kevin Clemens, Volkswagen s GTI Golf and Jetta are long time favorites among sport compact performance enthusiasts With engines ranging from the 2 0 liter naturally aspirated four cylinder to the 1 8 liter turbo 4 to the VR6 the Mk III and Mk IV generations 1993 2004 offer tuners a wealth of opportunities This book turns these opportunities into realities from deciding which vehicle to buy to keeping it running in tip top condition to enhancing the performance and appearance of your VW Focusing on the
