## **Au Programme Laïcité:**

*Unveiling the Nation* Emily Laxer, 2019-05-09 Over the last few decades politicians in Europe and North America have fiercely debated the effects of a growing Muslim minority on their respective national identities Some of these countries have prohibited Islamic religious coverings in public spaces and institutions while in others legal restriction remains subject to intense political conflict Seeking to understand these different outcomes social scientists have focused on the role of countries historically rooted models of nationhood and their attendant discourses of secularism Emily Laxer's *Unveiling the Nation* problematizes this approach Using France and Quebec as illustrative cases she traces how the struggle of political parties for power and legitimacy shapes states responses to Islamic signs Drawing on historical evidence and behind the scenes interviews with politicians and activists Laxer uncovers unseen links between structures of partisan conflict and the strategies that political actors employ when articulating the secular boundaries of the nation In France's historically class based political system she demonstrates parties on the left and the right have converged around a restrictive secular agenda in order to limit the siphoning of votes by the ultra right In Quebec by contrast the longstanding electoral salience of the national question has encouraged political actors to project highly conflicting images of the province's secular past present and future At a moment of heightened debate in the global politics of religious diversity Laxer's *Unveiling the Nation* sheds critical light on the way party politics and its related instabilities shape the secular boundaries of nationhood in diverse societies

Weil,2007 Le propos de cet ouvrage n est ni de c l brer la loi de 1905 centenaire mais toujours vaillante ni de m diter sur son

sens et son esprit mais de porter un nouvel éclairage sur les faits qui se sont produits aux moments de l'élaboration de la loi de séparation des Églises et de l'État de son adoption puis de sa mise en œuvre. Fondée sur de nouvelles recherches portant sur des domaines aussi variés que la médecine, la mort, l'histoire de la colonisation ou de la laïcité scolaire, croisant les approches de historiens, de sociologues, de politistes et de juristes, l'ensemble constitue une mise au point novatrice analysant des points de vue juridique, politique, social et culturel. La loi de 1905 ne symbolise pas seulement un épisode fort de la vie politique française. Il s'agit d'un texte soulevant de vifs débats, confrontations des situations géopolitiques particulières : les musulmans de l'Empire, le problème de l'Alsace-Moselle, etc. Dans le temps, la laïcité s'inscrit dans le droit s'institutionnalisant s'adaptant aux circonstances, son principe finit par être accepté par la seule des trois religions qui en avait refusé les termes et les conséquences. Après la Seconde Guerre mondiale, l'école est longtemps demeurée le théâtre d'affrontements virulents. Depuis une vingtaine d'années, le modèle républicain, la question de l'intégration nationale est questionnée par l'émergence de l'islam dans un contexte de développement de la diversité culturelle et religieuse. Des conditions politiques ayant entouré l'adoption de la loi de 1905 jusqu'aux représentations de la laïcité chez les Français d'aujourd'hui, c'est donc toute une partie d'histoire de la France au XX<sup>e</sup> siècle qui est retracée ici.
