*Frigatebirds, Sea Lions, and Darwin* David B. Schreiner,2025-04-15 In the Schreiner household conversations about creation evolution and ecology happen more often than normal Schreiner teaches biblical studies and his brother in law is a biologist And both teach at institutions of Christian higher education However when Schreiner's family was able to take a trip to Galapagos Islands in 2023 and 2024 his interpretive conclusions on the Bible's creation texts shifting positions on ecology and general moral responsibility as a Christian collided in a palpable way Inspired by a range of experiences from mingling with sea lions to taking water ferries across the Pacific to snorkeling with sharks Schreiner jovially shares experiences and musings that testify to his shifting positions on these matters his frustrations with the usual conversations and whether he thinks there can be true irenic conversation between Christians and scientists Informed blunt sometimes snarky but always honest Schreiner's musings will likely resonate with anyone who travels with their family or wants to be honest about the many variables that must inform a Christian's position on issues of creation evolution and ecology
