Fourth International Conference on Current and Future Trends in Bridge Design, Construction and

Maintenance B. Barr, 2006 This is a state of the art reference an exchange of innovative experience creative thinking and industry forecasts This volume presents the proceedings of the fourth international conference in this series based in the Asia Pacific region in Kuala Lumpur in October 2005 and is applicable to all sectors of the bridge engineering community

BACKGROUND KNOWLEDGE AND FUTURE PERFORMANCE The Institution of Civil Engineers has collaborated with internationally renowned bridge engineers to organise three successful conferences to celebrate the enormous achievements made in the field of bridge engineering in recent years As a discipline bridge engineering not only requires knowledge and experience of bridge design and construction techniques but must also deal with increasing challenges posed by the need to maintain the long term performance of structures throughout an extended service life In many parts of the world natural phenomena such as seismic events can cause significant damage to force major repairs or reconstruction Therefore it is appropriate that the first plenary session of this conference is entitled Engineering for Seismic Performance **READERSHIP** This compilation of papers will benefit practising civil and structural engineers in consulting firms and government agencies bridge contractors research institutes universities and colleges In short it is of importance to all engineers involved in any aspect of the design construction and repair maintenance and refurbishment of bridges Masters Abstracts International
