Economics Ha-Joon Chang, 2014-08-26 The award winning author of 23 Things They Don't Tell You About Capitalism outlines the real world processes of the global economy while explaining how to better understand the strengths and weaknesses of key economics theories to better navigate today's interconnected world

The Econocracy Joe Earle, Cahal Moran, Zach Ward-Perkins, 2017-07-06 A century ago the idea of the economy didn't exist Now economics is the supreme ideology of our time with its own rules and language The trouble is most of us can't speak it This is damaging democracy Dangerous agendas are hidden inside mathematical wrappers controversial policies are presented as proven by the models of economic science Government is being turned over to a publicly unaccountable technocratic elite The Econocracy reveals that economics is too important to be left to the economists and shows us how we can begin to participate more fully in the decisions which affect all our futures

The Oxford Handbook of Transnational Law Peer Zumbansen, 2021 The Oxford Handbook of Transnational Law offers a comprehensive compendium for the field of Transnational Law by providing a unique and unparalleled treatment and presentation in an area that has become one of the most intriguing and innovative developments in legal doctrine scholarship theory as well as practice today With a considerable contribution from and engagement with social sciences the Handbook features numerous reflections on the relationship between transnational law and legal practice

International Political Economy Thomas D. Lairson, David Skidmore, 2016-12-08 This text offers a rethinking of the field of international political economy in an era of growing but uneven globalization Even as global integration advances states play central roles as partners with the largest of global firms as the catalysts of competitiveness and economic growth as the creators of global institutions and in promoting and responding to global interdependence Indeed the struggle for power and wealth within and among states underscores the primacy of politics in understanding current realities At the same time new issues and actors complicate the global agenda as it expands to address the environment global health and food security By offering a clear explanation of basic concepts contextualizing the presentation of theoretical debates and placing current events in historical context International Political Economy ensures students a deep understanding of how the global economy works and the ways in which globalization affects their lives and those of people around the world

Key Content and Features Engages debates over the reach and significance of globalization Examines the sources and consequences of global financial instability Explores the origins and consequences of global inequality Compares various strategies of development and state roles in competitiveness Discusses the role of key international economic institutions Considers the impact of the rise of China on the global economy and the potential for war and peace Illustrates collective efforts to fight hunger disease and environmental threats Includes numerous graphs and illustrations throughout and end of chapter discussion questions Links key concepts for each chapter to a glossary at the end of the book Provides a list of acronyms at the outset and annotated further readings at the end of each chapter Offers

additional resources on a web site related to the text including a list of links to IPE related web pages

Developmentalism, Dependency, and the State: Industrial Development and Economic Change in Namibia since 1900 Christopher Hope, 2020-09-23 Why does Namibia's economy look the way it does today Was the reliance on raw materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia's history and provides the first history of the country's manufacturing sector

Economic and Political Weekly, 2006-07 *Reclaiming Development* Ha-Joon Chang, Ilene Gabel, 2004-05 The authors of this book challenge prevailing ideas about free markets and globalization They question whether globalization is a technological reality that cannot be stopped and ask if the US economy really outperformed its competitors in the 1990s They show how in each key area trade and industrial policy privatization intellectual property rights investment and financial policies exchange rate and currency policy labour and social welfare there are alternatives to neoliberal policies that the historical experience of particular countries prove really works

Labour Research, 2004 **Michigan State Journal of International Law**, 2006 **Economic and Social Survey of Asia and the Pacific 2011** United Nations, 2011 The region's oldest and most comprehensive annual review of economic and social developments forecasts the external environment in Asia Pacific to be less favourable in 2007 but sees continued dynamism despite risks of further oil price shocks and a sharp depreciation of the US dollar The Survey warns that interventions by monetary authorities to keep currencies down are leading to inflated asset values especially in housing and equity markets Managing exchange rates will be the biggest challenge facing Asia Pacific economies in 2007

American Book Publishing Record, 2003 **Subject Guide to Books in Print**, 2001 Assessing Regional Integration in Africa II African Union, 2006 This report examines the effectiveness of Africa's regional economic communities in pushing forward the regional integration agenda towards the objectives of the Abuja Treaty establishing the African Economic Community A fully functioning African Economic Community will remove all barriers to movement of people goods and services across the continent thereby creating a single economic space The report examines the critical role that institutions in general can play in achieving policy objectives and the specific role that African institutions perform The analysis focuses on the regional economic communities which have been designated by the African Union as the building blocks for achieving the African Economic Community

Vietnamese Enterprises Towards Global Competitiveness F. I. Nixon, Bernard Walters, 2010

Report on socio economic development in a 10 year period in Vietnam Illusion Or Opportunity Henry Veltmeyer,2007 The failure of development strategies in the past few decades has given rise to a worldwide movement in the direction of another development This is a form of development that is social as well as economic oriented towards people s basic needs people centred and initiated from below It is human in scale and form equitable and socially more inclusive capacitating and empowering of the poor sustainable in terms of both the environment and livelihoods participatory and community based This concern for another development is a major theme of this book which includes a series of analytical probes into the dynamics of social change its theory and practice **Brazilian journal of political economy** ,2005 **Reimagining Growth** Silvana De Paula,Gary A. Dymski,2005-05-17 In this volume a group of eminent economists and other social scientists seek to present an innovative new approach to economic development drawing in part from certain heterodox intellectual traditions within economics as well as from the other social sciences The intention is to point the way theoretically to a much more sophisticated understanding of economic development The ultimate prize they show by grounding theory in a more accurate analysis of social change is policies that really will deliver higher economic growth and greater social justice worldwide **Berkeley La Raza Law Journal** ,2006 The British National Bibliography Arthur James Wells,1996 The UN and Global Political Economy John Toye,Richard Toye,2004-07-09 Against the backdrop of a 20 year revolt against free trade orthodoxy by economists inside the UN and their impact on policy discussions since the 1960s the authors show how the UN both nurtured and inhibited creative and novel intellectual contributions to the trade and development debate Presenting a stirring account of the main UN actors in this debate The UN and Global Political Economy focuses on the accomplishments and struggles of UN economists and the role played by such UN agencies as the Department of Economic and Social Affairs the United Nations Commission on Trade and Development and the Economic Commission for Latin America and the Caribbean It also looks closely at the effects of the Latin American debt crisis of the 1980s the growing strength of the World Trade Organization WTO in the 1990s and the lessons to be drawn from these and other recent developments
