Edinburgh Companion to Globalgothic Rebecca Duncan,2023-06-15 The Edinburgh Companion to Globalgothic is the most substantial exploration to date of gothic fiction in the international context Examining texts from across six continents the volume considers how gothic imagines colludes with or interrogates relationships and phenomena that are planetary in scale Accordingly chapters address gothic engagements with among others resource imperialism ongoing colonial history diasporic identity buckling economic unions the rise of the internet ethnonationalism and entangled systems of gendered racialised and ecocidal power In this way the collection moves decisively beyond the framework of globalisation to identify a range of new globalgothic approaches and modes overall demonstrating that gothic is a key though sometimes complicit register for negotiating the challenges and histories of our uneven global present Dracula's Crypt Joseph Valente,2002 An ingenious reappraisal of a classic text Dracula s Crypt presents Stoker s novel as a subtly ironic commentary on England s preoccupation with racial purity Probing psychobiographical political and cultural elements of Stoker s background and milieu Joseph Valente distinguishes Stoker s viewpoint from that of his virulently racist hypermasculine vampire hunters showing how the author s dual Anglo Celtic heritage and uncertain status as an Irish parvenu among London s theatrical elite led him to espouse a progressive racial ideology at odds with the dominant Anglo Saxon supremacism In the light of Stoker s experience the shabby genteel Count Dracula can be seen as a doppelganger an ambiguous figure who is at once the blood conscious landed aristocrat and the bloodthirsty foreign invader **BOOK JACKET** The Resurrection of Classical Gothic Fiction and the Lovecraftian Visions in the Video Game "Bloodborne" (2015) Leonie Quicker,2023-06-06 Seminar paper from the year 2023 in the subject Computer Science Games Engineering grade 3 0 University of Paderborn language English abstract This research paper is set out to investigate in which way the Gothic as a genre and thereby its handle on contemporary fears is fulfilling its own prophecy of dying and being reborn in an endless cycle of reinterpretations and reinventions based on the video game Bloodborne by FromSoftware 2015 Many authors and researchers like Botting in 1996 have been speculating that the genre as such has died out and lost its importance in recent centuries However with the improved technicalities that provide new narratives and storytelling video games are venturing into a variety of different territories including the Gothic and are thereby also adding a greater audience to the genre Therefore rather than dying this paper theorizes that the Gothic is merely reinterpreted and put back together piece by piece becoming its own Frankenstein s monster with the help of new technologies or mediums and will continue to exist due to the never ending presence of fears that haunt our society that fuel the Gothic Bloodborne especially is a relevant video game that intertwines the Gothic and Lovecraftian motifs and themes onto a greater interactive scale and conquers the belief about the genre being dead
