Minority Rights, Feminism and International Law Silvia Gagliardi, 2020-05-26 Investigating minority and indigenous women s rights in Muslim majority states this book critically examines the human rights regime within international law Based on extensive and diverse ethnographic research on Amazigh women in Morocco the book unpacks and challenges generally accepted notions of rights and equality Significantly and controversially the book challenges the supposedly emancipatory power vested in the human rights project arguing that rights based discourses are sites of contestation for different groups that use them to assert their agency in society More specifically it shows how the very conditions that make minority and indigenous women instrumental to the preservation of their culture may condemn them to a position of subalternity In response and engaging the notion and meaning of Islamic feminism the book proposes that feminism should be interpreted and contextualised locally in order to be effective and inclusive and so in order for the human rights project to fully realise its potential to empower the marginalised and make space for their voices to be heard Providing a detailed empirically based analysis of rights in action this book will be of relevance to scholars students and practitioners in human rights policy and practice in international law minorities and indigenous peoples rights gender studies and Middle Eastern and North African Studies

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats
