Small,2021-09-24 Drawing on a wealth of academic research statistics and interviews with key Australian media people
including present and former Australian Broadcasting Corporation staffers this book explores the transitions of the ABC
under various types of organisational re strategising governance and political shifts The book provides the reader with an
authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed
from its respected public charter which endowed the ABC with a distinctive and important role in informing educating and
entertaining the Australian public Successive federal government funding cuts have shrunk staffing levels and services while
it has pursued a corporatist model that mimics the trappings and practices of commercial media In that process it has
become politicised and trivialised thereby threatening its demise The book is a unique and timely contribution at a time of
dwindling interest for the funding of public assets everywhere There is no other book in the market that addresses the
decline of the organisation the ABC and analyses the reasons for its demise within an organisational theoretical framework
The book is written for an educated general audience with academics and media practitioners specifically in mind and has
