

ODE TO AUTUMN

Season of mists and mellow fruitfulness,
 Close bosom-friend of the maturing sun;
Conspiring with him how to load and bless
 With fruit the vines that round the thatch-eaves run;
 To bend with apples the moss'd cottage-trees,
 And fill all fruit with ripness to the core;
 To swell the gourd, and **plump** the hazel shells
 With a sweet kernel; to set budding more,
 And still more, later flowers for the bees,
 Until they think warm days will never cease,
 For Summer has o'er-brimm'd their clammy cells.

10

Who hath not seen thee oft amid thy store?
 Sometimes whoever seeks abroad may find
 Thee sitting careless on a granary floor,
 Thy hair soft-lifted by the winnowing wind; 15
 Or on a half-reap'd furrow sound asleep,
 Drowsed with the fume of poppies, while thy hook
 Spares the next swath and all its twined flowers:
 And sometimes like a gleaner thou dost keep
 Steady thy laden head across a brook;
 Or by a cider-press, with patient look,
 Thou watchest the last oozyngs hours by hours.

20

Where are the songs of Spring? Ay, where are they?
 Think not of them, thou hast thy music too, -
 While barred clouds bloom the soft-dying day,
 And touch the stubble-plains with rosy hue; 25
 Then in a wailful choir the small gnats mourn
 Among the river shallows, borne aloft
 Or sinking as the light wind lives or dies;
 And full-grown lambs loud bleat from hilly bourn;
Hedge-crickets sing; and now with treble soft
 The **red-breast** whistles from a garden-croft;
 And gathering swallows twitter in the skies.

Summa Kitharologica, Vol. 2 Ricardo Iznaola, 2024-10-17 This second volume of Ricardo Iznaola's monumental Summa Kitharologica trilogy is according to its author a playbook for self-guided discovery in matters related to the expressive interpretation of music. Its 26 short pieces in all keys in versions for solo guitar and guitar duo present the reader with an ample array of musical styles and technical procedures that serve as so many opportunities for exploration of the fascinating and complex growth process that brings the player from basic acquaintance with a score to masterful assimilation of its contents. As the distinguished British guitarist and pedagogue Jonathan Leathwood remarks in his Foreword to the book at this point the player is so at one with the score that they can stretch it and occasionally contradict it without ever betraying its essential meaning, attaining that desirable imprecision proposed as a marker of ultimate mastery by cellist and pedagogue Pedro de Alcantara. As Leathwood reminds us, the musical contents are complemented by brief epigraphs preceding each solo miniature ranging from the factual to the poetic whose purpose is to anchor the music in an evocative affect-charged context that may hopefully stir the player's imagination as will the excellent recordings by Laura Husbands and the Arabesque Duo. Additional commentaries in the Working Notes section in the appendix and in the afterword deal with topics as diverse as mental practice, synesthesia, musical peak experiences, prosody and rhythm theory, the hazards of a performing career and the performer's need for and the challenges of introspective self-assessment. Throughout the book advocates as its core thesis the importance of a questioning stance, what if, as the path to discovery through changes in points of view, a consistently variable, perspectivist approach in which comparison and evaluation of multiple alternatives rather than prescriptive, pre-ordained solutions is taken as the foundation for true understanding. Volume 3 of Summa Kitharologica, Handbook of Comparative Fingering Analysis, completes the set with a comprehensive analytical overview of guitar fingering strategies since the early 19th century.

Spreadable Media Henry Jenkins, Sam Ford, Joshua Green, 2013-01-21 How sharing, linking and liking have transformed the media and marketing industries. Spreadable Media is a rare inside look at today's ever-changing media landscape. The days of corporate control over media content and its distribution have been replaced by the age of what the digital media industries have called user-generated content. Spreadable Media maps these fundamental changes and gives readers a comprehensive look into the rise of participatory culture from internet memes to presidential tweets. The authors challenge our notions of what goes viral and how by examining factors such as the nature of audience engagement and the environment of participation and by contrasting the concepts of stickiness, aggregating attention in centralized places with spreadability, dispersing content widely through both formal and informal networks. The former has often been the measure of media success in the online world but the latter describes the actual ways content travels through social media. The book explores the internal tensions businesses face as they adapt to this new spreadable communication reality and argues for the need to shift from hearing to listening in corporate culture. Now with a new afterword addressing changes in the media.

industry audience participation and political reporting and drawing on modern examples from online activism campaigns film music television advertising and social media from both the US and around the world the authors illustrate the contours of our current media environment For all of us who actively create and share content Spreadable Media provides a clear understanding of how people are spreading ideas and the implications these activities have for business politics and everyday life both on and offline
