On Evil Terry Eagleton:

On Evil Terry Eagleton, 2010-04-06 DIV In this witty accessible study the prominent Marxist thinker Terry Eagleton launches a surprising defense of the reality of evil drawing on literary theological and psychoanalytic sources to suggest that evil no mere medieval artifact is a real phenomenon with palpable force in our contemporary world In a book that ranges from St Augustine to alcoholism Thomas Aquinas to Thomas Mann Shakespeare to the Holocaust Eagleton investigates the frightful plight of those doomed souls who apparently destroy for no reason In the process he poses a set of intriguing questions Is evil really a kind of nothingness Why should it appear so glamorous and seductive Why does goodness seem so boring Is it really possible for human beings to delight in destruction for no reason at all div [Discourses on Violence and Punishment](#) Krešimir Petkovic, 2017-07-27 This book brings together various discourses concerned with violence and punishment paying special attention to the extreme variations of these phenomena Starting from a narrow definition of violence as an infliction of physical harm paired with a broad discussion of its causes and a wide definition of punishment as an authority claim to retribution or reform the book maps and interprets political theoretical discourses on the death penalty historical explanations of the changes of violence and punishment and comparative differences in punishment It also puts violence and punishment into perspective with political power world religions literature and film and criminological theory The final chapter changes the perspective taken in the bulk of the book dealing with discourses of theodicy in the face of cases of extreme violence and suffering By juxtaposing many unusual discourses the book attempts to fulfill three primary functions First it skeptically probes numerous discourses explaining and legitimizing violence and punishment in the light of extreme cases The book is a map of violence and punishment Second it invites the reader to confront choose and combine these discourses when thinking about facts and norms of punishment The book provides an analytical toolbox for research of violence and punishment Third the book presents wider sense seeking strategies employed to deal with suffering such as irony redemption or rationalization **The Idea of the Avant Garde** Marc James Léger, 2019-10-15 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day or future uses The first volume of *The Idea of the Avant Garde And What It Means Today* provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today s world of global art markets and creative industry entrepreneurialism This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance intermedia and music [Ambiguity in »Star Wars« and »Harry Potter«](#) Christina Flotmann, 2014-03-15 The study combines theories of myth popular culture structuralism and poststructuralism to explain the enormous appeal of Star

Wars and Harry Potter Although much research already exists on both stories individually this book is the first to explicitly bring them together in order to explore their set up and the ways in which their structures help produce ideologies on gender and ethnicity Hereby the comparison yields central insights into the workings of modern myth and uncovers structure as integral to the success of the popular genre It addresses academic audiences and all those wishing to approach the tales from a fresh angle Themelios, Volume 37, Issue 3 D.
