Positive Development Christopher Peterson, 2004 How can we promote the mental health of adolescents Although there have been decades of work focusing on eliminating or reducing psychological problems in children and adolescents through psychopathology clinical psychology and psychiatry isn t the ultimate goal for children to be safe healthy happy moral and fully engaged in life The papers in this special issue of The ANNALS depart from the tradition of a disease based model where well being is defined by the absence of distress and disorder Although the authors recognize that decreasing negative aspects is an important step in promoting health among children and teens they challenge the conventional approaches and call for increased attention to the positive aspect of human development The articles in this issue are an important addition to the Annenberg Foundation Trust at Sunnylands call for an Adolescent Mental Health Initiative which was a series of conferences in 2003 at the University of Pennsylvania This further one commission led by Martin Seligman was created to address positive youth development and its relevance to adolescent mental health Providing a dramatic shift in perspective these papers include innovative research topics and offer a solid framework for the idea of positive youth development including the history of positive youth development highlights of effective positive youth programs evaluation studies of a variety of interventions examples of theory based interventions and more Scholars students practitioners and policymakers in the child and adolescent field will find this issue of The ANNALS a critical resource It offers a refreshing position that emphasizes positive human development and strives toward the vision of young people who are satisfied with their life who have identified their talents and use them in a variety of fulfilling pursuits and who are contributing members of our society

Journal of Psychology in Africa, 2008 Literature Reviews in Sport Psychology Sheldon Hanton, 2006 Sport Psychology research has developed and expanded considerably over the last decade or two Its accelerating volume of research output embraces a wide variety of topics having both academic and practical impact and relating to other areas of Sports Science and also the broader overall discipline of mainstream

psychology In this busy and developing arena the healthy and productive evolution of a research topic requires the periodic summarisation reflection and feedback that is the domain of the literature review A review acts as the primary catalyst for a topic s emerging organisation reorganisation and structure and generates perspectives and pointers for further study directions it establishes reference points and foundations for continued progress By its very nature it tends to be a larger publication than a typical focused research paper The pathways to publication of Sport Psychology research are often severely congested For example in 2004 four of the main refereed outlets for original research in Sport Psychology The Sport Psychologist the Journal of Applied Sport Psychology the Journal of Sport and Exercise Psychology and the Psychology of Sport and Exercise received over 400 submissions private communications Inevitably the space that established journals can afford to grant to review articles is limited both in terms of the article size and the frequency with which topics can be visited Although reviews that appear in books usually enjoy a larger and more appropriate space allocation they typically have not carried the hallmark of external independent peer review that journal publication provides This collection presents a number of contemporary reviews of significant and popular topics from some prominent researchers within each area An important and distinctive feature of this volume is that all the chapters have been subjected to peer review by expert referees a process usually reserved solely for journal publications This book offers up to date literature reviews with a distinctive conceptual theoretical and practical focus
