Power, Islam, and Political Elite in Iran Eva Rakel, 2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran

Feeding Iran Rose Wellman, 2021-06-15 Since Iran's 1979 Revolution the imperative to create and protect the inner purity of family and nation in the face of outside spiritual corruption has been a driving force in national politics Through extensive fieldwork Rose Wellman examines how Basiji families as members of Iran's voluntary paramilitary organization are encountering enacting and challenging this imperative Her ethnography reveals how families and state elites are employing blood food and prayer in commemorations for martyrs

in Islamic national rituals to create citizens who embody familial piety purity and closeness to God Feeding Iran provides a rare and humanistic account of religion and family life in the post revolutionary Islamic Republic that examines how home life and everyday piety are linked to state power Iran Revisited Ali Pirzadeh,2016-04-20 This book examines Modern Iran through an interdisciplinary analysis of its cultural norms history and institutional environment The goal is to underline strengths and weaknesses of Iranian society as a whole and to illustrate less prescriptive explanations for the way Iran is seen through a lens of persistent collective conduct rather than erratic historical occurrences Throughout its history Iran has been subject to many studies all of which have diagnosed the country s problem and prescribed solutions based on certain theoretical grounds This book intends to look inward seeking cultural explanations for Iran s perpetual inability to improve its society The theme in this book is based on the eloquent words of Nasir Khusrau a great Iranian poet az mast ki bar mast The words are from a poem describing a self adoring eagle that sees its life abruptly ended by an arrow winged with its own feathers the bird is doomed by its own vanity The closest interpretation of this idiom in Western Christian culture is you reap what you sow which conveys a similar message that underlines one s responsibility in the sense that sooner or later we must face the choices we make This would enable us to confront and live up to what Iran s history and culture have taught us

The Government And Politics Of The Middle East And North Africa, Fourth Edition David Long,Bernard Reich,2002-04-08 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists
