Routledge Handbook of Space Policy Thomas Hoerber, Mariel Borowitz, Antonella Forganni, Bruno Reynaud de Sousa, 2024-12-30 This volume offers a comprehensive overview of the field of space policy Space is a technology driven domain and policy development has accelerated in recent years at a time when the space economy has begun to show remarkable potential Thus this handbook gathers experts from different fields with the aim of 1 offering an overview of the state of play regarding space policy issues and 2 expanding knowledge about possible future developments Given the cross disciplinary nature of the subject and its vast scope the authors contributions are grouped within different thematic sections as follows Theoretical structures for an understanding of space policies The history of

space Society justice and the human impact Governance of space Popularisation of space New frontiers in space and expansion into the unknown World space policies by geographic areas The introduction and the conclusion chapters provide a coherent connection between the contributions with each section presenting transversal themes such as power dynamics and rules commercialisation sustainability militarisation applications and domestic use and justice This volume will be of much interest to students of space policy and power security studies and international relations Global Social Problems James A. Glynn, Charles F. Hohm, Elbert W. Stewart, 1996 The first social problems text to approach the subject from a global perspective Global Social Problems helps students see the interconnected nature of the world's social problems from pollution to crime to population poverty and racism A number of pedagogical aids including maps study questions key terms and summaries support the text's global approach while special boxed features titled Toward Global Solutions provide students with an uplifting glimpse of how one nation or group has successfully addressed a pressing social problem
