

**Enhancing shareholder wealth:** while the overall aim of all listed firms is to maximise shareholder wealth, specific financial aims in a firm's annual report would not normally make reference to this

- Decrease cash for bonuses
- Increase brand reputation and recognition
- Invest in projects with positive NPV
- Decrease average cost of capital
  - If entity is all-equity financed, raising debt finance will decrease its cost of capital
- Moving profitable operations to low tax regimes

**NOT-FOR-PROFIT (NFP) ENTITIES:** primary objective is provision of an acceptable level of service to key stakeholders; since services provided are limited by available funds, secondary objective is to raise maximum funds and to use such funds efficiently to maximise benefited generated

- **Public sector entities:** ie hospitals; nationalised industry; government; generally run to the benefit of society overall and often regulated; but major problem is obtaining a measurable objective:
  - Budgetary compliance: usually set by government
  - Risk exposure: risk averse due to political repercussions of failure
  - Profitability: largely absent as a concept in its truest form, but may be used to relate inputs to outputs
  - Cash generation
  - Value added
  - Return on Assets (ROA): interpretation impacted in the public sector as concept of profit is largely absent
  - Market share: increasingly relevant
  - Competitive position: increasingly relevant

**Value for money (VFM) / 3Es:** useful means of appraising NFP performance under the umbrella term "cost-effectiveness": the optimal use of resources to achieve the intended outcome

- 1. Economy (input measure):** minimise the cost of resources (inputs) used; spend less
  - 2. Efficiency (links input to output):** relationship between products (outputs) and resources (inputs) used to produce them; spend well
  - 3. Effectiveness (output measure):** relationship between inputs and actual results of public spending (outcomes); spend wisely
- ...a fourth E is suggested: **4. Equity:** extent to which services reach all people intended; spend fairly
- **VFM audit:** investigating whether arrangements have been made for securing 3Es in use of resources; focuses on specific area of expenditure to conclude if VFM has been achieved
  - **Purpose:** independent analysis on the way money has been spent to achieve policy objectives

For-profit entity	Not-for-profit entity
Aim to maximise shareholder wealth	Aim to provide an acceptable level of service to key stakeholders and are concerned with VFM
Aim to satisfy a wide range of stakeholders	Aim to satisfy a wide range of stakeholders
Have financial and profit objectives	Do not have profit orientated objectives, but may have financial objectives

**INTERNATIONAL OPERATIONS:** entities are increasingly expanding across national boundaries in the modern business environment, resulting in some additional considerations:

Strategic considerations of international expansion	Financial considerations of international expansion
<b>Risk management:</b> interest rates, foreign exchange rates, government policy	<b>Maximisation of shareholder wealth:</b> by undertaking positive NPV projects internationally
<b>Competition:</b> foreign markets may have weaker/stronger competition	
<b>Customers:</b> may enhance/women customer relationships by moving closer/further away; while also exposing the firm to pool of potential new customers	<b>Impact on financial statements:</b> assets/transactions denominated in a foreign currency must be converted to the domestic (functional) currency, thus exposing the entity to translation risk as exchange rates fluctuate
<b>Economies of scale</b>	
<b>Costs:</b> higher distribution costs; possibly lower raw materials and labour costs	
<b>Ethical issues:</b> taking advantage of less developed labour laws	<b>Impact on cost of capital:</b> likely to change to reflect increased associated risk.
<b>Cultural issues:</b> differences in language, customs, and advertising	

**FINANCIAL PERFORMANCE APPRAISAL:** investors (shareholders and lenders) appraise entity performance to assess whether it represents a good investment, necessitating ratio analysis:

- **Gross profit** = Revenue / sales - Cost of goods sold (COGS)
- **Operating profit / Profit before interest and tax (PBIT)** = Gross profit - Operating expenses
- **Profit before tax** = Operating profit - Finance costs (interest payable)
- **Earnings / Net income / Profit after tax (PAT)** = Profit before tax - Tax

**PROFITABILITY RATIOS:** ideal value varies; important to compare over time and between entities

- **Gross profit margin:** % of revenue retained after cost of goods sold (COGS) are deducted

$$\text{Gross profit} = \text{Revenue} - \text{Cost of goods sold (COGS)}$$

$$\text{Gross profit margin} = \frac{\text{Gross profit}}{\text{Revenue}} \times 100\%$$

- **Operating profit margin:** profit after operating expenses (indirect costs such as administration and distribution costs) but before interest (finance costs) and tax are deducted

$$\text{Operating profit} = \text{Gross profit} - \text{Operating expenses} = \text{Profit before interest and tax (PBIT)}$$

$$\text{Operating profit margin} = \frac{\text{Operating profit}}{\text{Revenue}} \times 100\%$$

While this might not be the Cima Lecture Notes full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Cima Lecture Notes eBooks, including some popular titles.

## FAQs About Cima Lecture Notes Books

**What is a Cima Lecture Notes PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Cima Lecture Notes PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Cima Lecture Notes PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Cima Lecture Notes PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Cima Lecture Notes PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
