Diesel & Gas Turbine Catalog ,1989 *Japan 21st* ,1994 *Alternative Diesel Fuels* Daniel J Holt,2004-01-01 A key topic of many technical discussions has been the development of alternative fuels to power the compression ignition engine. Reasons for this include the desire to reduce the dependency on petroleum based fuel and at the same time to reduce the particulate matter PM and NOx emissions. Also there has been interest generated in the diesel engine because of the reduction in greenhouse gases that has been proposed during the 2008-2012 time frame in Europe and the regulations that affect diesel engines in the United States.

Russians in Iran Rudi Matthee,Elena Andreeva,2018-01-25 Russians in Iran seeks to challenge the traditional narrative regarding Russian involvement in Iran and to show that whilst Russia's historical involvement in Iran is longstanding it is nonetheless much misunderstood. Russia's influence in Iran between 1800 and the middle of the twentieth century is not simply a story of inexorable intrusion and domination rather it is a complex and interactive process of mostly indirect control and constructive engagement. Drawing on fresh archival material the contributors provide a window into the power and influence wielded in Iran not just by the Russian government through its traditional representatives but by Russian nationals operating in Iran in a variety of capacities including individuals, bankers and entrepreneurs. Russians in Iran reveals the multifaceted role that Russians have played in Iranian history and provides an original and important contribution to the history and international relations of Iran, Russia and the Middle East.
