hearts and minds when we strive to get adolescents to think critically and write honestly we open ourselves up to suspicion and critique from someone somewhere no matter how above reproach we feel our materials and strategies are Few language arts teachers will experience a full blown challenge to the content of their curriculum but many may self censor or suffer through awkward and challenging conversations with colleagues administrators parents and other members of their community This book is for those times when teachers are called on to defend and legitimize their use of controversial material in their classroom material that they know reflects students reality even as it makes adults uncomfortable and fearful about their inability to protect children from that very reality
