

What is “*Signals & Systems*” all about???

Signals & Systems

- Because most “systems” are driven by “signals” EEs & CoEs study what is called “Signals & Systems”
- **“Signal”** = a time-varying voltage (or other quantity) that generally carries some information
- The job of the **“System”** is often to extract, modify, transform, or manipulate that carried information
- So... a big part of **“Signals & Systems”** is using **math models** to see what a system “does” to a signal
