Re Paris letter 9/27/60.

The Paris Federal Police furnished the following report on October 1, 1960:

The investigation of the "Albert Schweitzer College" located in Courbevoie, Seine-St. Denis, 93500 Paris, advised that the school principal had reported the planned attendance of this subject for the course beginning in the Fall of 1960. Inquiry of the college revealed that he had not arrived there as of the present time. He had originally written a letter from Moscow indicating his intention to attend there. A letter which was addressed to him at this address by his mother was returned to her since his whereabouts are unknown to the college. The Paris Federal Police advised that it is unlikely that he would have attended the course under a different name. The Paris Federal Police advised that courses for the Fall of 1960 commence on October 2, 1960, and that it is highly probable that the school has now received further correspondence from OSWALD. At the present time, there is no report of a person possibly identical with the subject who is registered for the course beginning October 2, 1960.

The Paris Federal Police advised that if further information comes to the attention of the Paris Schweitzer College, same will be reported and copy to Paris will advise.

The JFK Conspiracy: Christian Reflections Richie Cooley, 2019-05-19 The topic of JFK's assassination has fascinated the public for many decades. This booklet takes a quick look at the case and also invites the reader to consider eternal truths.

*The JFK Assassination Debates* Michael L. Kurtz, 2006 William L. Kurtz delivers a comprehensive, thought-provoking book about the various theories surrounding the JFK assassination, favoring the conspiracy theory himself. **International Cooperation Against All Odds** Mai'a K. Davis Cross, 2023-10-19 International Cooperation Against All Odds: The Ultrasocial World recasts how we understand international relations through an examination of how the human evolutionary predisposition to be ultrasocial as a species impacts which political ideas succeed, transform, manipulate, and inspire on a global scale. At a time when pessimism about our current world order is at an all-time high, this book overturns widespread assumptions that international relations is mainly about conflict, power, and national self-interest. In the last 10-20 years, scientists have discovered that as a species, we are biologically hard-wired, soft-wired, and pre-wired to be other-regarding and cooperative. Humans are an ultrasocial species, and yet this predisposition is completely ignored in governments across the world. Political leaders, experts, and the media have cultivated a myopic vision of global conflict, feeding an obsession on crises of the moment rather than recognizing frequent and significant breakthroughs in peaceful cooperation and overall trends in the decline of violence. This book shows how, time and time again, our ultrasocial predisposition has pushed us towards big ideas that inspire and bring us together around the power of possibility. Featuring original research on international cooperation in outer space exploration, European Union integration, nuclear weapons, and climate change among other examples, Mai'a K. Davis Cross shows ultrasociality at work in a range of contexts. Tracing the path from social neuroscience and evolutionary biology among others to the power of ideas to international agreements, *International Cooperation Against All Odds* opens up an entirely new understanding of world politics. If we recognize our nature as a species and the potential we have to work together, we can start to transform institutions and devise policies that take advantage of this. The book ends with a roadmap to promote more international cooperation and eventually a more stable, peaceful world order. **The Zapruder Film** David R. Wrone, 2003 David Wrone, one of the nation's foremost authorities on the JFK assassination, reexamines Zapruder's film with a fresh eye and a deep knowledge of the forensic evidence. *Archivaria*, 2004 *Are We the Next Endangered Species?* Richard M. Fleming, 2024-07-16 *Are We the Next Endangered Species?* unravels the complex web of historical events, misinformation, and the ominous convergence of bioweapons and eugenics. In this thought-provoking new book, Dr. Fleming challenges us to navigate the murky waters of history, exposing parallel programs developed over the last 170 years in the United States. This riveting exploration unearths ancient civilizations that embraced slavery, sterilization, and eugenics, drawing chilling parallels to our present reality. Dr. Fleming confronts the uncomfortable truth: are we repeating the mistakes of the past while expecting different outcomes? Are we destined to replicate the errors that led to the rise of

powerful individuals and organizations seeking ultimate control over others Key revelations include the stealthy usurpation of power in the United States since the 1850s the nation s pivotal role in developing biological and chemical weapons and its shocking collaboration with Nazi scientists doctors and intelligence officers Dr Fleming unveils the shadowy world of covert operations the establishment of the military industrial complex and the surrender of medical control to the federal government Readers will discover the intricate pathways of biowarfare and eugenics converging with the emergence of COVID They will learn about the gain of function bioweapons responsible for the pandemic and the parallel development of eugenic genetic vaccines Fleming reveals the control wielded by the military industrial complex and world leaders over your life movement property and freedoms This book is not just an exploration of the past or a revelation of how those in power are on the brink of realizing their ultimate control it s a call to action It doesn t just raise awareness it empowers readers to understand question and take decisive action to halt the ominous path we re on In a world where truth is elusive and power is coveted this book is a beacon of knowledge urging you to discover what you can do to stop the impending threats to our existence The future hangs in the balance and *Are We the Next Endangered Species* provides the roadmap to safeguard it

[Breach of Trust](#) Gerald McKnight,2005 Explains how the Warren Commission had a political agenda dictated by the FBI causing it to reach its lone assassin conclusion and how the Commission s own documentation and other papers point to a likely conspiracy theory
