Operations in Business Michael R. Summers,1998-05-21 The field of operations management is increasingly recognized as being crucial to the success of a company The premise of this book is that learning specific analytical techniques can provide a deeper understanding of the problems in operations management than merely reading about these problems The book is concise while still providing a broad discussion of the issues and details to learn these valuable tools Each problem area is introduced with an overview of the issues that must be addressed and the array of tools available to analyze them Next detailed examples are presented Through these examples the ramifications of the various approaches and the tradeoffs that must be considered when choosing one approach over another are explored The book is a valuable resource for researchers

students and business practitioners
