reexamine your interactions online and question whether you should provide the information that a given website requests. These simple decisions can prevent a lot of damage in the long run. In cyber security today policy is of the utmost importance. You must understand the policies that guide your interaction with different individuals and entities especially concerning data security and sharing. This book introduces you to the GDPR policies that were passed in the EU as a guideline for how different entities interact with and handle data they hold in their databases. More importantly you will also learn how to protect yourself in the event of an attack. Some attacks are multilayered such that the way you respond to it might create a bigger problem or prevent one. By the end of this book it is our hope that you will be more vigilant and protective of your devices and networks and be more aware of your networking environment.
