Current Trends in Global Education: Bridging K-12 and Higher Education for an Interconnected World

MARINA FALASCA, KARINA J. BAUM, 2024-10-10 *Current Trends in Global Education Bridging K 12 and Higher Education for an Interconnected World* explores the evolving landscape of global education through insights from esteemed educators and researchers. It defines global education and presents multiple rationales for developing global competence along with a literature review of significant challenges over the past two decades. The anthology showcases innovative K 12 practices, emerging trends, and the transformative role of transnational telecollaboration and artificial intelligence (AI) in fostering global citizenship and cross-cultural communication. It also examines higher education focusing on novel pedagogical tools, hybrid learning communities, and virtual exchange initiatives in ESP/EAP courses, as well as key factors affecting AI adoption in this context. Concluding with future directions, the collection emphasizes the need for collaboration across educational levels to prepare learners to thrive in a globally connected world, making it an essential resource for educators, policymakers, and scholars aiming to bridge K 12 and higher education while reimagining global education.

Emerging Trends in Digital Era Through Educational Technology Dr. Manichander T., [Teaching English to Young Learners in Indonesia](#) Gusti Astika, 2025-12-15 *Teaching English to Young Learners in Indonesia* is a practical guide for teachers who work with children in primary schools. It explains what English teaching looks like in Indonesia today and offers simple, research-based ideas teachers can use right away. The book begins by introducing the Indonesian context: how English fits into the national curriculum, how children grow up using several languages, and what this means for teaching English in EFL classrooms. Teachers will also learn how children aged 6-12 learn best, with easy explanations of key ideas from Piaget, Vygotsky, Krashen, and Bruner. The book shows why curiosity, play, imagination, and emotional support are essential in young learner classrooms. Practical chapters guide teachers through curriculum planning, adapting the Merdeka Curriculum, integrating CLIL, and creating simple lesson plans. There are clear examples of how to teach vocabulary, grammar, listening, speaking, reading, and writing in child-friendly ways using stories, chants, songs, games, phonics, and creative activities. The book also highlights fun and effective teaching approaches such as storytelling, drama, tasks, and projects, with ideas for mini-books, puppet shows, English fairs, and cultural exchanges. Digital tools and AI are introduced in a safe and practical way, helping teachers use apps, digital stories, and gamified activities to support learning. To help teachers manage real classrooms, the book includes strategies for building routines, teaching large classes, supporting shy learners, and using Bahasa Indonesia wisely. Assessment is explained in a simple way with tips for portfolios, checklists, projects, and giving culturally sensitive feedback. The final chapters share classroom stories from across Indonesia and offer a look at the future of English teaching: bilingual programs, multilingual learning with AI, and ideas for inclusive and sustainable EYL education. Overall, this book gives teachers the knowledge, skills, and confidence to create enjoyable, meaningful, and effective English lessons for young Indonesian learners.
