Introduction to Parallel Computing Vipin Kumar,1994 *Mathematics of Computing Parallelism* *Fast and Accurate Finite-Element Multigrid Solvers for PDE Simulations on GPU Clusters* Dominik Göldeke,2011 This dissertation demonstrates that graphics processors GPUs as representatives of emerging many core architectures are very well suited for the fast and accurate solution of large sparse linear systems of equations using parallel multigrid methods on heterogeneous compute clusters Such systems arise for instance in the discretisation of elliptic partial differential equations with finite elements Fine granular parallelisation techniques and methods to ensure accuracy are developed that enable at least one

order of magnitude speedup over highly tuned conventional CPU implementations without sacrificing neither accuracy nor functionality

Parallel Algorithms for Irregular Problems: State of the Art Alfonso Ferreira, José Rolim, 2013-04-17 Efficient parallel solutions have been found to many problems Some of them can be obtained automatically from sequential programs using compilers However there is a large class of problems irregular problems that lack efficient solutions IRREGULAR 94 a workshop and summer school organized in Geneva addressed the problems associated with the derivation of efficient solutions to irregular problems This book which is based on the workshop draws on the contributions of outstanding scientists to present the state of the art in irregular problems covering aspects ranging from scientific computing discrete optimization and automatic extraction of parallelism Audience This first book on parallel algorithms for irregular problems is of interest to advanced graduate students and researchers in parallel computer science
