The book caters to the needs of both undergraduate and postgraduate management courses. It covers almost all important topics of behavioural finance prescribed in the syllabi of various universities across India including Neurofinance and Forensic Accounting which have rare occurrence in other books but are important from a future perspective. There is a dearth of literature in behavioural finance and if available, then the books are of large volumes written by foreign authors citing examples and case studies from the countries other than India. Overall, the book will help readers in gaining adequate knowledge of the subject.
