

Cooking Techniques

Spacing

Individual foods, such as baked potatoes, cupcakes and appetizers, will cook more evenly if placed in the oven equal distances apart. When possible, arrange foods in a circular pattern.

Covering

As with conventional cooking, moisture evaporates during microwave cooking. Casserole lids or plastic wrap are used for a tighter seal. When using plastic wrap, vent the plastic wrap by folding back part of the plastic wrap from the edge of the dish to allow steam to escape. Loosen or remove plastic wrap as recipe directs for stand time. When removing plastic wrap covers, as well as any glass lids, be careful to remove them away from you to avoid steam burns. Various degrees of moisture retention are also obtained by using wax paper or paper towels. However, unless specified, a recipe is cooked covered.

Shielding

Thin areas of meat and poultry cook more quickly than meaty portions. To prevent overcooking, these thin areas can be shielded with strips of aluminum foil. Wooden toothpicks may be used to hold the foil in place.

Timing

A range in cooking time is given in each recipe. The time range compensates for the uncontrollable differences in food shapes, starting temperature and regional preferences. Always cook food for the minimum cooking time given in a recipe and check for doneness. If the food is undercooked, continue cooking. It is easier to add time to an undercooked product. Once the food is overcooked, nothing can be done.

Stirring

Stirring is usually necessary during microwave cooking. We have noted when stirring is helpful, using the words once, twice, frequently or occasionally to describe the amount of stirring necessary. Always bring the cooked outside edges toward the center and the less cooked center portions toward the outside of the dish.

Rearranging

Rearrange small items such as chicken pieces, shrimp, hamburger patties or pork chops. Rearrange pieces from the edge to the center and pieces from the center to the edge of the dish.

Turning

It is not possible to stir some foods to redistribute the heat. At times, microwave energy will concentrate in one area of a food. To help insure even cooking, these foods need to be turned. Turn over large foods, such as roasts or turkeys, halfway through cooking.

Stand Time

Most foods will continue to cook by conduction after the microwave oven is turned off. In meat cookery, the internal temperature will rise 5°F to 15°F (3°C to 8°C), if allowed to stand, tented with foil, for 10 to 15 minutes. Casseroles and vegetables need a shorter amount of standing time, but this standing time is necessary to allow foods to complete cooking to the center without overcooking on the edges.

Testing for Doneness

The same tests for doneness used in conventional cooking may be used for microwave cooking. Meat is done when fork-tender or splits at fibers. Chicken is done when juices are clear yellow and drumstick moves freely. Fish is done when it flakes and is opaque. Cake is done when a toothpick or cake tester is inserted and comes out clean. Candy is done when it reaches the proper temperature for each stage of crystallization.

Blueprint Cooking Techniques Manual

Blueprint Cooking Techniques Manual:

The Cook's Oracle; and Housekeeper's Manual William Kitchiner, 2022-07-20 William Kitchiner's *The Cook's Oracle and Housekeeper's Manual* serves as a quintessential guide to the culinary arts of the early 19th century deftly marrying practical cooking methods with domestic management. Written with an engaging and instructional tone, Kitchiner's work reflects the burgeoning interest in gastronomy during the Regency era, marked by a shift towards more refined culinary techniques and diverse ingredients. This authoritative manual offers an extensive collection of recipes coupled with wisdom on the organization and operation of a household, revealing the social dynamics and culinary trends of the time. Kitchiner, a physician by profession and a fervent culinary enthusiast, draws upon his diverse background to present his compendium. His insights are shaped not only by his medical expertise but also by his experiences in aristocratic households, which informed his understanding of dietary needs and preferences. This unique perspective enables him to blend health consciousness with the joy of cooking, making his manual a notable contribution to both the culinary and domestic spheres of his era. For anyone passionate about historical gastronomy or the evolution of cooking techniques, Kitchiner's *The Cook's Oracle* is indispensable. It provides a window into the culture of the time while also offering timeless culinary advice, rendering it useful for contemporary cooks and historians alike. Dive into its pages to explore the intersection of cuisine and domestic art and let it inspire your own culinary journey.

Control and Resistance Lara Anderson, 2020-02-24 *Control and Resistance* reveals the various ways in which food writing of the early Franco era was a potent political tool, producing ways of eating and thinking about food that privileged patriotism over personal desire. The author examines a diverse range of official and non-official food texts to highlight how discourse helped construct and contest identities in line with the three ideological pillars of the regime: autarky, prescriptive gender roles, and monolithic nationalism. Official food discourse produced an audience with a taste for local foodstuffs and also created a unified gastronomic space in which regional cuisines were co-opted for the purposes of culinary nationalism. The author discusses a genre of official texts directed solely at women, which demanded women's compliance and exclusive dedication to domesticity. Alongside such examples, *Control and Resistance* includes texts that offered resistance to the Franco hegemony. Food texts have traditionally been viewed as apolitical because of their connections with domesticity, so they were not subject to the same degree of censorship as other published works.

Accordingly, food writing was at times more capable of offering disruptive or resistant textual spaces than other forms of discourse.
