Smart Collaboration How Professionals And Their Firms:

Smart Collaboration Heidi K. Gardner, 2016-12-13 A Washington Post Bestseller Not all collaboration is smart Make sure you do it right Professional service firms face a serious challenge Their clients increasingly need them to solve complex problems everything from regulatory compliance to cybersecurity the kinds of problems that only teams of multidisciplinary experts can tackle Yet most firms have carved up their highly specialized professional experts into narrowly defined practice areas and collaborating across these silos is often messy risky and expensive Unless you know why you re collaborating and how to do it effectively it may not be smart at all That s especially true for partners who have built their reputations and client rosters independently not by working with peers In *Smart Collaboration* Heidi K Gardner shows that firms earn higher margins inspire greater client loyalty attract and retain the best talent and gain a competitive edge when specialists collaborate across functional boundaries Gardner a former McKinsey consultant and Harvard Business School professor now lecturing at Harvard Law School has spent over a decade conducting in depth studies of numerous global professional service firms Her research with clients and the empirical results of her studies demonstrate clearly and convincingly that collaboration pays for both professionals and their firms But Gardner also offers powerful prescriptions for how leaders can foster collaboration move to higher margin work increase client satisfaction improve lateral hiring decrease enterprise risk engage workers to contribute their utmost break down silos and boost their bottom line With case studies and real world insights *Smart Collaboration* delivers an authoritative case for the value of collaboration to today s professionals their firms and their clients and shows you exactly how to achieve it

BigLaw Mitt Regan, Lisa H. Rohrer, 2021-01-12 The Great Recession intensified large law firms emphasis on financial performance leading to claims that lawyers in these firms were now guided by business rather than professional values Based on interviews with more than 250 partners in large firms Mitt Regan and Lisa H Rohrer suggest that the reality is much more complex It is true that large firm hiring promotion compensation and termination policies are more influenced by business considerations than ever before and that firms actively recruit profitable partners from other firms to replace those they regard as unproductive At the same time law firm partners continue to seek the non financial rewards of being members of a distinct profession and are sensitive to whether their firms are committed to providing them Regan and Rohrer argue that modern firms responding effectively to business demands while credibly affirming the importance of non financial professional values can create strong cultures that enhance their ability to weather the storms of the modern legal market Michigan Professional Engineer, 2000
