Engaging Students in Academic Literacies María Estela Brisk, 2022-12-12 The second edition of this important and practical text provides specific information to guide teachers in planning and carrying out genre writing instruction in English for K-8 students within the content areas. Informed by systemic functional linguistics (SFL), a framework conducive to instruction that views language as a meaning-making resource, this book guides teachers by presenting concrete ways to teach writing in the language arts, science, and social science curricula. Introducing theory of language that is effective in addressing the writing development of all students, especially multilingual and multicultural groups, the book provides essential scaffolding for teachers to design and implement effective, inclusive curricula while building their own knowledge. Fully up to date, the second edition features new genres appropriate for middle school, examples of student writing, an expanded focus on genre pedagogy, a new chapter on bilingual learners, guidance for teaching in the middle grades, as well as clear steps to prepare genre units based on two decades of experience working with whole schools. The chapter units cover distinct genres, including memoirs, historical genres, fictional narratives, arguments, and more. With ready-to-use tools, the new edition prepares elementary and middle school teachers to meet and adapt to the variable demands of their own educational contexts. Easy to navigate, this teacher-friendly text is an essential resource for courses in academic writing, English education, and multilingual education, and for pre-service and practicing English Language Arts (ELA) teachers who want to expand their teaching abilities and knowledge bases.

Literacy Learning Clubs in Grades 4-8 Heather Kenyon Casey, 2017-05-03 Literacy learning clubs are highly motivating, small-group collaborations that can improve tweens and teens' academic achievement, support their social-emotional development, and increase their enjoyment of reading and writing. This book explains the research basis for the author's approach and offers practical instructions for implementation in English language arts, social studies, science, and mathematics classrooms, illustrated with detailed case examples. Links to the Common Core State Standards are identified, and multimodal methods and new literacies are emphasized throughout. User-friendly features include end-of-chapter reflection questions and suggested activities. The Appendix provides reproducible planning forms and handouts that can be downloaded and printed in a convenient 8 1/2 x 11 size.
