Introduction To Agile Software Development Danube:

Information Science and Applications Kuinam J. Kim,2015-02-17 This proceedings volume provides a snapshot of the latest issues encountered in technical convergence and convergences of security technology It explores how information science is core to most current research industrial and commercial activities and consists of contributions covering topics including Ubiquitous Computing Networks and Information Systems Multimedia and Visualization Middleware and Operating Systems Security and Privacy Data Mining and Artificial Intelligence Software Engineering and Web Technology The proceedings introduce the most recent information technology and ideas applications and problems related to technology convergence illustrated through case studies and reviews converging existing security techniques Through this volume readers will gain an understanding of the current state of the art in information strategies and technologies of convergence security The intended readership are researchers in academia industry and other research institutes focusing on information science and technology   *EBOOK: Information Systems Development* AVISON,2006-03-16 EBOOK Information Systems Development   **Advances in Artificial Intelligence, Software and Systems Engineering** Tareq Z. Ahram,2018-06-28 This book focuses on emerging issues following the integration of artificial intelligence systems in our daily lives It focuses on the cognitive visual social and analytical aspects of computing and intelligent technologies highlighting ways to improve technology acceptance effectiveness and efficiency Topics such as responsibility integration and training are discussed throughout The book also reports on the latest advances in systems engineering with a focus on societal challenges and next generation systems and applications for meeting them It also discusses applications in smart grids and infrastructures systems engineering education as well as defense and aerospace The book is based on both the AHFE 2018 International Conference on Human Factors in Artificial Intelligence and Social Computing Software and Systems Engineering The Human Side of Service Engineering and Human Factors in Energy July 21 25 2018 Loews Sapphire Falls Resort at Universal Studios Orlando Florida USA   **High Performance Architecture and Grid Computing** Archana Mantri,Suman Nandi,Gaurav Kumar,Sandeep Kumar,2011-07-05 This book constitutes the refereeds proceedings of the International Conference on High Performance Architecture and Grid Computing HPAGC 2011 held in Chandigarh India in July 2011 The 87 revised full papers presented were carefully reviewed and selected from 240 submissions The papers are organized in topical sections on grid and cloud computing high performance architecture information management and network security   **Building a Scalable Data Warehouse with Data Vault 2.0** Daniel Linstedt,Michael Olschimke,2015-09-15 The Data Vault was invented by Dan Linstedt at the U S Department of Defense and the standard has been successfully applied to data warehousing projects at organizations of different sizes from small to large size corporations Due to its simplified design which is adapted from nature the Data Vault 2 0 standard helps prevent typical data warehousing failures Building a Scalable Data Warehouse covers everything one needs to know to create a scalable data warehouse end to end including a presentation of the Data

Vault modeling technique which provides the foundations to create a technical data warehouse layer The book discusses how to build the data warehouse incrementally using the agile Data Vault 2 0 methodology In addition readers will learn how to create the input layer the stage layer and the presentation layer data mart of the Data Vault 2 0 architecture including implementation best practices Drawing upon years of practical experience and using numerous examples and an easy to understand framework Dan Linstedt and Michael Olschimke discuss How to load each layer using SQL Server Integration Services SSIS including automation of the Data Vault loading processes Important data warehouse technologies and practices Data Quality Services DQS and Master Data Services MDS in the context of the Data Vault architecture Provides a complete introduction to data warehousing applications and the business context so readers can get up and running fast Explains theoretical concepts and provides hands on instruction on how to build and implement a data warehouse Demystifies data vault modeling with beginning intermediate and advanced techniques Discusses the advantages of the data vault approach over other techniques also including the latest updates to Data Vault 2 0 and multiple improvements to Data Vault 1 0 *Innovative Mobile and Internet Services in Ubiquitous Computing* Leonard Barolli,Kangbin Yim,Hsing-Chung Chen,2021-06-23 This book includes proceedings of the 15th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing IMIS 2021 which took place in Asan Korea on July 1 3 2021 With the proliferation of wireless technologies and electronic devices there is a fast growing interest in Ubiquitous and Pervasive Computing UPC The UPC enables to create a human oriented computing environment where computer chips are embedded in everyday objects and interact with physical world Through UPC people can get online even while moving around thus having almost permanent access to their preferred services With a great potential to revolutionize our lives UPC also poses new research challenges The aim of the book is to provide the latest research findings methods development techniques challenges and solutions from both theoretical and practical perspectives related to UPC with an emphasis on innovative mobile and Internet services **Product-Focused Software Process Improvement** Davide Taibi,Marco Kuhrmann,Tommi Mikkonen,Jil Klünder,Pekka Abrahamsson,2022-11-13 This book constitutes the refereed proceedings of the 23rd International Conference on Product Focused Software Process Improvement PROFES 2022 which took place in Jyv skyl Finland in November 2022 The 24 full technical papers 9 short papers and 6 poster papers presented in this volume were carefully reviewed and selected from 75 submissions The book also contains and 8 doctoral symposium papers and 7 tutorial and workshop papers The contributions were organized in topical sections as follows Keynote Cloud and AI Empirical Studies Process Management Refactoring and Technical Dept Software Business and Digital Innovation Testing and Bug Prediction Posters Tutorials Workshop on Engineering Processes and Practices for Quantum Software PPQS 22 1st Workshop on Computational Intelligence and Software Engineering CISE 2022 Doctoral Symposium Dr. Dobb's Journal ,2008 *Computer Engineering: Concepts, Methodologies, Tools and Applications* Management Association, Information Resources,2011-12-31
