Garden Design and Landscaping Mark Parkes, 2020-05-10. Are you looking for a complete guide on landscaping and gardening design? Then keep reading. Once the homework has been done, it is now time to start to think about designing your new landscape. You can proceed one of two ways from here: You can take your plot plan and ideas to a professional, or you can go through the design process yourself. Most people start here without doing the homework that you just read about. This is a big mistake because all truly good design must accommodate the items that we cannot change. If you decide to proceed on your own at this point, I have listed a few ideas and recommendations below. I would like to say just a few words on the subject at this point in the process. I am a landscape architect by trade; I am not a plumber, mechanic, or electrician. My wife will surely tell you that I am not a painter, or

an accountant My point is that we all have our areas of expertise IF you are not comfortable in the next step or you feel overwhelmed by all the choices of plants mulches and hardscape treatments then you should engage a professional in the green industry at this point This book covers The Fundamental Of Landscape Design Knowing Everything Before To Start Land Landscape Design Guidelines Low Cost Easy Raised Beds For Your Landscaping Garden Design The Main Components Plant Design Overview Tree s And Flowers For Your Landscaping Design The Social And Small City Garden Design Landscape Styles For Different Environment Kinds The Garden Country Style Mine Blowing Landscaping Ideas And More You could hire a landscape architect landscape designer or nurseryman to help you with your plans The first two will probably charge a consultation fee The nurseryman may or may not if you buy the plants from his establishment This is money and time well spent The information that you have previously gathered will make their job extremely easy This is their area of expertise and armed with the information that you have gathered they should be able to generate some pretty amazing results in just an hour or so Who to choose Here is where you need to do some homework again It has been my experience over the years that nurserymen tend to design landscapes that are plant heavy It makes sense since they are in the business of selling plants Some landscape architects are too plant light resulting in sometimes sterile results The designer that mixes an appropriate amount of plants lawn and architecture to satisfy your requirements in an aesthetic manner IS the person you want You can find the right professional by asking neighbors looking at landscapes that are appealing to you and visiting nurseries in the area Ask if different designers have web sites and view them Whichever path you take during the design process please take the time to do your homework before beginning I cannot stress the idea enough that an informed designer will create a wonderful and functional landscape almost always Want more about this book BUY NOW *Interior Landscape Design* Nelson Hammer,1991 Garden Design and Landscaping Mark Parkes,2020-08 DID YOU KNOW THAT MORE THAN 80% OF BOOKS ABOUT GARDEN DESIGN ARE HARMFUL TO BEGINNERS The majority of garden design and landscaping books are good but too difficult and technical and above all they provide sector specific information that doesn t give you an overview of the process of creating a garden design necessary to understand how to apply it Although garden design books contains much information 73% of the readers considers them really confusing Do you know why Many books only focus on a specific area of the process of garden s creation giving you lot of information which is often too difficult and expensive for a beginner If you start from scratch you ll need an easy and step by step guide that allows your mind to picture a clear and complete view of the basis of the process needed to create the design of a garden That s why I created this simple guide for beginners like you since I have been working as a garden designer and architect for 20 years and I know exactly the doubts you have and the information you need This is what you ll find in the book Which are the basics of landscape design that you must absolutely know to create a garden What you need to know before the creation of the garden in order to avoid mistakes that can be expensive How to design a garden from the scratch Low cost strategies that allow you to save from 20% to 40%

of your expenses Selection of plants and flowers based on your climatic zone All the elements that can't be forgotten in a garden design How to choose your favorite garden's style Creative ideas for your garden After reading this book you'll be sure that you won't make mistakes in planning and creating a landscape design since you'll know all the pieces of the puzzle and you will be able to combine them in the right way Just know that the first consultancy with Mark Parkers costs 1000 but thanks to this book you can have access to his 20 years experience by paying a low price So let me give you a piece of advice instead of buying technical difficult and confusing books that will drive you crazy just learn the basis and the entire creation process of a garden design Don't waste more precious time **SCROLL UP THIS PAGE AND CLICK THE BY NOW BUTTON**
