Timeless Themes Prentice Hall PTR, 2000 **Chicago Tribune Index**, 1998 *The Horror Sensorium* Angela Ndalianis, 2012-09-26 Horror films, books, and video games engage their audiences through combinations of storytelling practices, emotional experiences, cognitive responses, and physicality that ignite the sensorium—the sensory mechanics of the body and the intellectual and cognitive functions connected to them. Through analyses of various mediums, this volume explores how the horror genre affects the mind and body of the spectator. Works explored include the films *28 Days Later* and *Death Proof*, the video games *Resident Evil 4* and *Doom 3*, the theme park ride *The Revenge of the Mummy*, transmedia experiences associated with *The Dark Knight* and *True Blood*, and paranormal romance novels featuring Anita Blake and Sookie Stackhouse. By examining how these diverse media generate medium-specific corporeal and sensory responses, it reveals how the sensorium interweaves sensory and intellectual encounters to produce powerful systems of perception.
