Performance Management is the second paper in the Performance pillar. It builds on Paper P1 knowledge as well as introducing such new topics as transfer pricing. The paper focuses on the ability to discuss and evaluate results as well as use techniques to calculate the numbers. The syllabus is concerned with Analysis and discussion of pricing and product decisions. Evaluation of techniques used to in cost planning and analysis for competitive advantage. Evaluation of performance using budgets and discussion of issues in using budgets for this purpose. Discussion of how to measure performance of responsibility centres and evaluation of the usefulness of these techniques. P1 requires a good understanding of the underlying concepts and techniques in all five areas. P1 also needs you to be able to apply these concepts to practical situations, evaluate them critically and interpret the results. The P2 study text provides comprehensive coverage of the complete P2 syllabus. It features step by step guides to such topics as limiting factor analysis, multi product breakeven analysis and budgeting. Each chapter includes numerous simple and comprehensive examples of how to apply various techniques. Areas that students traditionally find difficult such as linear programming and transfer pricing are dealt with in dedicated chapters that break these topics down into manageable sections and give students plenty of opportunities to practise techniques.

September I received the fantastic news this morning that I have finally passed T4. Many thanks for your support and advice in the lead up to the exam. I am certain that without the really important tips on exam strategy you provided I would not have passed. Many thanks again Babak Fardaghaie. So I managed a 76% pass for E2 using your notes. They are very well structured and easy to use. Thank you so very much Amanda Vakalisa. The Astranti method of teaching is systematic and easy to follow.
