

Co-dependency

Fact Sheet on co-dependency from Mental Health America:

Co-dependency is a learned behavior that can be passed down from one generation to another. It is an emotional and behavioral condition that affects an individual's ability to have a healthy, mutually satisfying relationship. It is also known as "relationship addiction" because people with codependency often form or maintain relationships that are one-sided, emotionally destructive and/or abusive. Co-dependent behavior is learned by watching and imitating other family members who display this type of behavior.

Who Does Co-dependency Affect?

Co-dependency often affects a spouse, a parent, sibling, friend, or co-worker of a person afflicted with alcohol or drug dependence. Originally, co-dependent was a term used to describe partners in chemical dependency, persons living with, or in a relationship with an addicted person. Similar patterns have been seen in people in relationships with chronically or mentally ill individuals. Today, however, the term has broadened to describe any co-dependent person from any dysfunctional family.

What is a Dysfunctional Family and How Does it Lead to Co-dependency?

A dysfunctional family is one in which members suffer from fear, anger, pain, or shame that is ignored or denied. Underlying problems may include any of the following:

- An addiction by a family member to drugs, alcohol, relationships, work, food, sex, or gambling.
- The existence of physical, emotional, or sexual abuse.
- The presence of a family member suffering from a chronic mental or physical illness.

Dysfunctional families do not acknowledge that problems exist. They don't talk about them or confront them. As a result, family members learn to repress emotions and disregard their own needs. They become "survivors." They develop behaviors that help them deny, ignore, or avoid difficult emotions. They detach themselves. They don't talk. They don't touch. They don't confront. They don't feel. They don't trust. The identity and emotional development of the members of a dysfunctional family are often inhibited.

Attention and energy focus on the family member who is ill or addicted. The co-dependent person typically sacrifices his or her needs to take care of a person who is sick. When co-dependents place other people's health, welfare and safety before their own, they can lose contact with their own needs, desires, and sense of self.

families and loved ones of people with alcohol and chemical dependency. People who have loved ones with addictions are called codependents. Codependents are focused on taking care of and helping an addict to such an extent that they lose touch with their own goals, lives, and emotional needs. Codependents are not usually addicts themselves. They often feel that they do not need help since they are not the ones who are sick and are not the ones who are behaving badly. However, codependency leads to great unhappiness, anger, and guilt, and can make it very difficult for codependents to function or to have healthy relationships, even if a loved one becomes sober. Having a loved one who is an addict leads to long-lasting trauma. Codependents need help to address this trauma.

Taking the State out of the Body Eliana Rubin, 2024-09-24. *Taking the State out of the Body* is a guidebook in deconstructing nationalism through trauma-informed praxis. Embedded in the political theory and practice of Jewish anti-Zionism, it invites readers of all backgrounds to build an embodied sense of safety that has the power to make militarized borders, policing, and nation-states obsolete. We need the resources offered in this book: from understanding geopolitical impacts of intergenerational trauma to self-regulation in conflict to transformative approaches to harm to cultivating long-haul relationships to building solidarity across our movements. The book's framework is situated in the lineages of healing justice and politicized healers, including many antifascist Ashkenazi Jewish practitioners in 1930s Europe. Today, as the terms somatics and trauma have been mainstreamed, *Taking the State out of the Body* is a timely offer to move from individual awareness to collective action. Weaving anti-imperialist orientations to historical events with embodiment theory, each chapter opens with a connection to a plant or body part and closes with a guide to practices that fuel resistance and resilience. This book will equip you with the tools you need to move from rugged individualist models of self-help/preservation to liberatory frameworks of collective care and joint struggle.
