Skinner,2019-09-05 With populist nationalist and repressive governments on the rise around the world questioning the
impact of politics on the nature and role of law and the state is a pressing concern If we are to understand the effects of
extreme ideologies on the state s legal dimensions and powers especially the power to punish and to determine the
boundaries of permissible conduct through criminal law it is essential to consider the lessons of history This timely collection
explores how political ideas and beliefs influenced the nature content and application of criminal law and justice under
Fascism National Socialism and other authoritarian regimes in the twentieth century Bringing together expert legal
historians from four continents the collection s 16 chapters examine aspects of criminal law and related jurisprudential and
criminological questions in the context of Fascist Italy Nazi Germany Nazi occupied Norway apartheid South Africa Francoist
Spain and the authoritarian regimes of Brazil Romania and Japan Based on original archival doctrinal and theoretical
research the collection offers new critical perspectives on issues of systemic identity self perception and the foundational role

century progressing further in that direction is one of the most important challenges for the 21st century The problems it poses are many the term war has formally fallen into disuse and we talk about peacekeeping armies are today the product of cooperation between states and international organizations private contractors increasingly participate in warlike activities as the case of the Iraq war demonstrates and the lines between war and very serious forms of crime terrorism organized crime are increasingly blurred This volume compiles the contributions presented at XVth International Congress on Social Defence and tackle the criminal legal issues raised by these new scenarios It constitutes an innovative volume gathering together the work of both academic and military authors who have drawn on their theoretical and practical experience
