Raise the Barre Richard Giorla, Laurel House, 2009-10-06. A comprehensive guide to the hottest new fitness program in the country. Cardio Barre a dance based workout that combines cardio strength training and stretching in one fast paced fat burning body lengthening session. With a full nutrition program as well you'll see life changing results in only eight weeks. While yoga pilates aerobics and weightlifting are all successful popular fitness routines each one of them is missing something that the others offer. Richard Giorla is a classically trained dancer who has learned from his decades of training that the key to strength and endurance is developing core muscle the center of the body must be strong in order to support the other areas of the body. In Cardio Barre you work from your core maintaining your balance using a barre a countertop a chair or even your own strength then repeat low resistance motions such as plies arm extensions and leg flexes. With no kicking jumping or punching this effective and complete workout leaves participants with long lean muscles flexibility and endurance. With the success of the Cardio Barre workout in LA where it has gained celebrity adherents and a long waiting list of others as well as the recent launch of Cardio Barre in New York this is poised to become the new it workout.
