US Special Ops Fred Pushies, 2016-07-01 It s the inside scoop on US military special operations From weapons gear missions and commandos learn every military secret from the eighteenth century to today Few aspects of the US military pique people s interest more than special ops Due to the clandestine nature of their missions weapons and gear these elite fighting forces are cloaked in an aura of intrigue that has

only ratcheted upward with the expanded roles they have assumed in today's world not to mention their recent and frequent appearances in film books and other mass media In US Special Ops longtime military author and special ops expert Fred Pushies takes on the entire scope of America's elite fighting forces beginning with their earliest days Pushies profiles hundreds of weapons gear vehicles missions and commandos from eighteenth century fighters like Francis Marion right up through the most advanced capabilities of today's Green Berets Rangers SEALs Marine Force Recon US Air Force combat controllers CIA Special Activities Division and more well over 350 entries in all From the tomahawks used by Rogers's Rangers to special ops legends like Col Aaron Bank to Operation Neptune Spear and beyond US Special Ops is a comprehensive informative and unique survey of all aspects of US special operations past and present

The Complete Idiot's Guide to the U.S. Special Ops Forces Marc Cerasini,2002 A guide to the face of modern US warfare in the 21st century The US Special Operations Forces will be at the forefront of every battle that the US will wage against the war on terrorism

Focus On: 100 Most Popular Unreal Engine Games Wikipedia contributors, **U.S. Air Force Special Ops** Fred J. Pushies,2007 Before the frogmen of the Navy SEALs fast roped in this team may have been there marking the area with infra beacons Before the U S Army Rangers ever executed an air drop on a drop zone this team might have been there for days Who are these men They are the warriors of the Air Force Special Operations Command Their gunships and special mission aircraft insert supply and support special forces They do what they have to whatever the mission They are Air Force with an attitude and this is their story U S Air Force Special Ops is a rare inside look at a force that prizes its anonymity often taking the part of the unsung heroes in critical covert operations The book ranges from their early roots and operational history to today's intense training program covering new squadrons geared to the war on terror from their arsenal of weapons and equipment to their sophisticated aircraft like the AC 130U Spectre gunships bristling with 25mm chaingun 40mm Bofors and 105mm howitzer cannon and the correspondingly lethal MH 53 Pave Low helicopter

Special Operations in the Age of Chivalry, 1100-1550 Yuval N. Harari,2007 Alongside the familiar pitched battles regular sieges and large scale manoeuvres medieval and early modern wars also involved assassination abduction treason and sabotage These undercover operations were aimed chiefly against key individuals mostly royalty or the leaders of the opposing army and against key fortified places including bridges mills and dams However because of their clandestine nature these deeds of derring do have not been studied in any detail a major gap which this book seeks to fill It surveys a wide variety of special operations from the eleventh to the sixteenth century It then analyzes in greater depth six select and exciting operations the betrayal of Antioch in 1098 the attempt to rescue King Baldwin II from the dungeon of Khartpert in 1123 the assassination of Conrad of Montferrat in 1192 the attempt to storm Calais in 1350 the dirty war waged by the rulers of France and Burgundy in the 1460s and 1470s and the demolition of the flour mill of Auriol in 1536 Dr YUVAL NOAH HARARI teaches at the Hebrew University of Jerusalem

On Video Games Soraya Murray,2017-10-30 Today over half of all American households

own a dedicated game console and gaming industry profits trump those of the film industry worldwide In this book Soraya Murray moves past the technical discussions of games and offers a fresh and incisive look at their cultural dimensions She critically explores blockbusters like *The Last of Us* *Metal Gear Solid* *Spec Ops* *The Line* *Tomb Raider* and *Assassin's Creed* to show how they are deeply entangled with American ideological positions and contemporary political cultural and economic conflicts As quintessential forms of visual material in the twenty first century mainstream games both mirror and spur larger societal fears hopes and dreams and even address complex struggles for recognition This book examines both their elaborately constructed characters and densely layered worlds whose social and environmental landscapes reflect ideas about gender race globalisation and urban life In this emerging field of study Murray provides novel theoretical approaches to discussing games and playable media as culture Demonstrating that games are at the frontline of power relations she reimagines how we see them and more importantly how we understand them
