We learned how to integrate [Spring and Hibernate](#) in our last tutorial. Today we will move forward and integrate Spring MVC and Hibernate frameworks in a web application CRUD example.

Our final project structure looks like below image, we will look into each of the components one by one.

Note that I am using Spring **3.0.3 release** and Hibernate **3.5.5 final** versions for our example, the same program is also compatible for Spring 4 and Hibernate 3, however you need to make small changes in spring bean configuration file discussed in the last tutorial.

Maven Dependencies

Let's look at all the maven dependencies are required for hibernate and spring MVC framework integration.
