

The Symbol of Postmodernism

(Frank Gehry)

What?

Contemporary architects are using increasingly radical forms to challenge traditional ideas about how buildings are designed and built. Architects are embracing a postmodernism that allows for a freedom of form that is not bound by the rules of modernism.

Model 1 - The 1994 Vancouver Children's Centre

Model 1 is a complex of six interconnected volumes, a representation of a new architectural paradigm (1994)

or "three-dimensional puzzle" and illustrates the way

to

to "break down the traditional architectural paradigm"

by using a variety of shapes and forms to create

an "open, flexible space that allows for a variety

of uses and activities"

and is a "great example"
