Equity Method - answer✓✓The equity method is the standard technique used when one company has a significant investment in another. When a company holds approximately 20% or more of another company's stock, it is considered to have significant control, which signifies the power one company can exert over another.

Generally accepted accounting principles (GAAP) recognize four different approaches to the financial reporting of investments in corporate equity securities:

- answer✓✓1.Fair-value method.

2.Cost method for equity securities without readily determinable fair values.

3.Consolidation of financial statements.

4.Equity method.

Fair value is defined by the ASC (Master Glossary) as - answer✓✓"price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date."

Accrual Accounting - answer✓✓Gives businesses the opportunity to list credit and cash sales in the same reporting period that the sales occur

(IASB) - answer✓✓International Accounting Standards Board
