Allah Made Us Rudolf Pell Gaudio,2011-09-13 A rich and engrossing account of sexual outlaws in the Hausa speaking region of northern Nigeria where Islamic law requires strict separation of the sexes and different rules of behavior for women and men in virtually every facet of life The first ethnographic study of sexual minorities in Africa and one of very few works on sexual minorities in the Islamic world Engagingly written combining innovative ethnographic narrative with analyses of sociolinguistic transcripts historical texts and popular media including video film newspapers and song poetry Analyzes the social experiences and expressive culture of yan daudu feminine men in Nigerian Hausaland in relation to local national and global debates over gender and sexuality at the turn of the twenty first century Winner of the 2009 Ruth Benedict Prize in the category of Outstanding Monograph Agents of Social Change Sung H. Bauta,2022-07-15 This book goes where no other work has gone It refuses to conform to the conventional descriptions of the realities of widows in Africa Thus rather than approach the issue of widowhood from the vantage point of what society can do for widows the book considers what widows can do for society Christian widows in northern Nigeria are defying the restrictions assigned to their widowhood Remarriage and property inheritance for instance are not central to widows ambitions Widows believe that they are not passive observers within society rather they are agents of social change Therefore they are drawing from their faith in religious social and economic engagements towards societal transformation Of the institutions that influence their lives Christian institutions provide the best guide for the embodied agency of Christian widows in northern Nigeria The theory of embodiment considers the ways Christian widows emulate the life of Jesus towards remaking society Mechanical Harvest of Fresh Market Apples Zhao Zhang,Zhaohua Zhang,Cannayen Igathinathane,Yingkuan Wang,Yiannis Ampatzidis,Gang Liu,2021-11-02 This book presents the progress changes and evolvment for apple mechanical harvest during the past decades which include but not limited to bulky harvest method harvest platform apple infield sorting and harvest robotics Though there are significant progresses in apple harvest robotics there still is a long way ahead before its practical applications with existing and potential bottlenecks described in this book Hence other researchers would take advantage of this book to have a hint of the apple mechanical harvest history and state of the art progress so that they can find the room for their new research This book targets senior undergraduates and more importantly graduate students in the field of
