intelligence training for your kid These chapters will help parents and teachers in achieving a more unconventional educational method focused on exposing children to activities that encourage the expression of emotions It will teach you how to develop emotional intelligence in your kids while providing a solid emotional intelligence appraisal Social skills contribute substantially to an efficient adaptation and integration in the environment we live in Through interactions with others we achieve individual goals We reach them not only through pure cognitive thought but also through emotions through human relationships that push us forward Without emotions and relationships our lives are meaningless Emotional intelligence in the workplace is also vital for your professional career Thus a child s ability to develop relationships with other children until the age of 6 years and above is often more important than having a high IQ Some kids bloom late and some early their cognitive processes start to kick in at different stages in life Developing Emotional intelligence is something that kids must practice starting kindergarten The process of developing social and emotional skills begins as early as the first years of life which is why the quality of interactions with others is crucial You won t find an emotional intelligence test or an emotional intelligence quiz here but rather a collection of emotional intelligence activities described in detail with clear objectives and instructions These activities will be your homework as a parent or tutor something to work on with your child during his learning It is the best emotional intelligence assessment you can make by practicing these activities with your young ones and guiding their reactions and providing constant feedback to them
