Linear Programming James P. Ignizio, Tom M. Cavalier, 1994 For senior graduate level courses in Linear Programming A comprehensive modern introduction to the philosophies and procedures used in the

modeling solution and analysis of linear programming problems **Linear Programming for Decision Making** David Ray Anderson, Dennis J. Sweeney, Thomas Arthur Williams, 1974 **Introduction to Management Science** Bernard W. Taylor, 1996 This introduction to the often mathematically rigorous techniques and applications of management science is designed to make the subject accessible for students with no mathematical background or skills It focuses on management science not only as a collection of techniques and processes but as a philosophy and method for approaching problems in a logical manner as skill that is applicable across disciplines and endeavours in all types of jobs and organizations The author's perspective is contemporary his approach hands on and his pedagogy abundant supportive and user friendly for students and instructors alike **Operations Research** John S.
