on a wealth of academic research statistics and interviews with key Australian media people including present and former
Australian Broadcasting Corporation staffers this book explores the transitions of the ABC under various types of
organisational re strategising governance and political shifts The book provides the reader with an authoritative narrative as
to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public
charter which endowed the ABC with a distinctive and important role in informing educating and entertaining the Australian
public Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist
model that mimics the trappings and practices of commercial media In that process it has become politicised and trivialised
thereby threatening its demise The book is a unique and timely contribution at a time of dwindling interest for the funding of
public assets everywhere There is no other book in the market that addresses the decline of the organisation the ABC and
analyses the reasons for its demise within an organisational theoretical framework The book is written for an educated
general audience with academics and media practitioners specifically in mind and has everyday applications for business
organisations operating in the public sector by bringing together important findings of public funding budgets management
and organisational strategies and evolution Automotive Industries, 1930 Vols for 1919 include an Annual statistical issue

commonplace activities point to a central feature of contemporary culture the most common way we participate in social
activism is by buying something Roopali Mukherjee and Sarah Banet Weiser have gathered an exemplary group of scholars to
explore this new landscape through a series of case studies of commodity activism Drawing from television film consumer
activist campaigns and cultures of celebrity and corporate patronage the essays take up examples such as the Dove Real
Beauty campaign sex positive retail activism ABC s Extreme Home Makeover and Angelina Jolie as multinational celebrity
missionary Exploring the complexities embedded in contemporary political activism Commodity Activism reveals the
workings of power and resistance as well as citizenship and subjectivity in the neoliberal era Refusing to simply position
politics in opposition to consumerism this collection teases out the relationships between material cultures and political
