Modernizing Costume Design, 1820-1920 Annie Holt, 2020-10-14 Annie Holt identifies the roots of contemporary Euro American practices of costume design in which costumes are an integrated part of the dramaturgy rather than a reflection of an individual performer's taste or status. She argues that in the period 1820-1920, as part of the larger project of modernism across the artistic and cultural field, the functions of clothing and costume diverged. Onstage apparel took on a more specific semiotic task, acting as a fresh channel for the flow of information between the performer, the literary text, and the spectator. *Modernizing Costume Design* traces how five kinds of artists—directors, performers, writers, couturiers, and painters—made key contributions to this new model of costume design. Holt shows that by 1920, costume design shifted in status from craft to art.

Politics and Sentiments in Risorgimento Italy Carlotta Sorba, 2021-05-03 This book investigates the narrative of nationhood during the Italian Risorgimento and its ability to reach a new and wider audience. In Italy, an extraordinary emotional excitement pervaded the struggle for national independence, suffusing the speeches and actions of patriots. This book shows how this ardour borrowed the tones, figures, and spectacular nature of the melodramatic imagination, feeding the theatre and literature of the time and how it could resonate with a largely uneducated audience. An important contribution to the new historiography on the Italian Risorgimento and on nineteenth-century nationalism in Europe, it offers a fresh perspective on the public sphere during the Risorgimento, focusing on the transnational links between political mobilisation and the growth of new media and burgeoning mass culture.

Augustine and the Humanists Guy Claessens, Fabio Della Schiava, 2021-11-15 *Augustine and the Humanists* investigates the reception of Augustine's *De civitate Dei* in Italian humanism during the fourteenth and fifteenth centuries. In response to the urgent call for a more extensive and detailed investigation of the reception of Augustine's works and thought in the Western world, numerous scholars have addressed the topic over the last decades. However, one of Augustine's major works, *De civitate Dei*, has received remarkably little attention. In a series of case studies by renowned specialists of Italian humanism, this volume now analyzes the various strategies that were employed in reading and interpreting the *City of God* at the dawn of the modern age. *Augustine and the Humanists* focuses on the reception of the text in the work of sixteen early modern writers and thinkers who played a crucial role in the era between Petrarch and Poliziano. The present volume thus makes a significant and innovative contribution both to Augustinian studies and to our knowledge of early modern intellectual history.
