The writings of the ancient Greeks posed a challenge to Christian scholars. Aristotle taught that people should use reason to discover basic truths. Christians, however, accepted many ideas on faith. They believed that the Church was the final authority on all questions. How could they use the logic of Aristotle without undermining their Christian faith?

Some Christian scholars tried to resolve the conflict between faith and reason. Their method, known as scholasticism, used reason to support Christian beliefs. Scholastics studied the works of the Muslim philosopher Averroës (uh VEER uh weez) and the Jewish rabbi Maimonides (my MAHN uh deez). These thinkers, too, used logic to resolve the conflict between faith and reason.
