Leadership Experience 5th Edition Daft Cengage Learning:

Higher Education Leadership Strategy in the Public Affairs Triumvirate Jeffrey W. Goltz, 2020-02-20 This book provides a comprehensive approach for colleges rethinking their community policy connections. From a preacademic perspective, it introduces a new paradigm for contemporary college and community connections through the evolution of research scholarship and experience and the application of the Public Affairs discipline from Higher Education Leadership. The book explains how the public affairs forces of Community Organization and Administration offer a unique combination of concepts and theory that can transform practice, develop innovation, strengthen communities, and transform lives through a college partnering in a variety of community projects. The book's defined ethical composition institutes leadership in the public realm within the Public Affairs Triumvirate, and its discussion of the science to service to philosophy will advance higher education strategy scholarship, creating new ideas for how academia and communities can create sustained connections and partnerships for solving problems in any community.

Interrogation of the Fire Service: A Leadership Factor Akwasi M. Maru, 2017-09-11 What are some issues facing the fire service? What is causing firefighter deaths? What are some training challenges in the fire service? How can fire service leadership be improved? What is the future of fire service? Akwasi Maru interrogates the fire service through a series of questions. He then provides answers based on quantitative and qualitative data. The fire service has many issues facing it today, such as firefighters' risk of cancer, yet the number one cause of firefighter's death is not cancer. Fire Departments from around the country are laying off firefighters and closing fire stations, but how does this affect response time and civilian deaths? Training divisions lack funds and staffing to train personnel effectively. Maru explains how the leadership of officers and chiefs could blind their decisions due to their personal beliefs, such as sexism, racism, narcissism, the white shirt syndrome, and their inability to adapt to change. With all the current issues, what is the future of the Fire Service?
